

Student Study Planner & Habit Tracker

A semester-length digital planner for students: weekly study blocks, spaced-repetition tracker, assignment deadlines, and habit tracking.

Educational use only.
This product contains educational information and templates. Nothing here is professional, legal, tax, or investment advice. For decisions that matter, talk to a qualified professional.

01. Weekly Study Block Planner

Assign 2–3 dedicated 90-minute study blocks per week per course. Treat these like meetings — non-negotiable.

Sample Week (5 courses):

Monday	Calculus 8–9:30am, English 4–5:30pm
Tuesday	Chemistry 8–9:30am, History 6–7:30pm
Wednesday	Calculus 7–8:30pm, Spanish 3–4:30pm
Thursday	English 4–5:30pm, Chemistry 6–7:30pm
Friday	History 2–3:30pm, Spanish review 4–5pm

02. Spaced-Repetition Review Tracker

Review material on a schedule: first review after 1 day, second after 3 days, third after 1 week, fourth after 2 weeks.

Example: Biology Midterm Topics

Topic	Initial	1-day	3-day	1-week	2-week
Cell Structure	9/1	9/2	9/4	9/8	9/15
Photosynthesis	9/3	9/4	9/6	9/10	9/17
DNA Replication	9/5	9/6	9/8	9/12	9/19

03. Assignment Deadline Tracker with Priorities

Track all deadlines in one place. Flag by weight (quiz = low, paper = medium, exam = high).

Course	Assignment	Due	Weight	Status
Calculus	Problem Set 3	9/10	Low	In Progress
English	Essay 1 (critical)	9/12	High	Outlining
Chemistry	Lab Report	9/15	Medium	Not Started

04. Daily Habit Tracker (Sleep, Exercise, Study)

Track 3 non-negotiable habits for sustainable learning: sleep, exercise, and study. Aim for consistency to study + 1 hour leisure.

Day	Sleep ' "	Exercise ' "	Screen Limit ' "	Notes
Monday	' "	' "	' "	Good focus, slept 7:45h
Tuesday	' "	' "	' "	Skipped workout (late study)
Wednesday	' "	' "	' "	Only 6h sleep; too much social media
Thursday	' "	' "	' "	Reset; good week ahead

05. Study Tips for Success

- Start assignments early. Cramming the night before kills retention.
- Use your study blocks to teach someone else (or explain it out loud). If you can't explain it, you don't understand it.
- Review your mistakes. A wrong answer is more valuable than a right guess.
- Protect your sleep. Missing sleep for studying is a net loss (worse recall, slower learning).
- Do one hard thing per day. Frontload the hardest class or assignment when you're fresh.
